

# Dance Solo

AVEC

Whenever I let go  
I hear you like an echo  
As if you are in my head, my head  
Let me let you go  
So I can move along  
Still remember all that we had, we had

You chased me like a shadow  
I waited for a rainbow  
Guess I should have known  
Whenever I let go  
Of all my love and hope  
You keep trying to follow me, follow me

A window into my soul  
Where you and me dance solo  
Let me let you go (Let me let you go)  
And if you left your light on  
I would've tried to hold on  
Just let me let you go  
(Let me let you go)

Go leave me all alone  
I want you to be gone  
Get out of my head, my head  
So let me let you go  
There is no afterglow  
A new love lies ahead, ahead of us

You chased me like a shadow  
I waited for a rainbow  
Guess I could have known  
Whenever I let go  
Of all my love and hope  
You keep trying to follow me, follow me

A window into my soul  
Where you and me dance solo  
Let me let you go (Let me let you go)  
And if you left your light on  
I would've tried to hold on  
Just let me let you go  
(Let me let you go)

I gave it all  
I gave you all that I've got  
I gave it all that I've got

A window into my soul  
Where you and me dance solo  
And if you left your light on  
Would I've tried to hold on  
Just let me let you go  
(Let me let you go)

I gave it all  
I gave you all that I've got

Now I let go  
Oh I let go of our past  
I gave it all  
I gave it all that I've got
