

## Darling

AVEC

We're running and running in the streets  
Into the night  
The circles are bigger than the love we can fight  
And the faces in the middle of the spotlight  
Are the creeps in the mirrors behind our eyes?

Oh...

Oh...

And darling, you're killing me in my sleep  
Oh no, I said darling  
You wanna feel the heat?  
Oh and darling, darling  
No, you're turning around and around and it's deep  
I said, darling  
Do you still believe it?

And two of us, two of us  
Into the light  
Both all alone and then, one too high  
But you said: "I love you"  
"I love you", is this good enough?  
But my words teach you still, not to lie  
Not to lie, oh no, no

Oh...

Oh...

And darling you're killing me in my sleep  
Oh no, I said darling  
You wanna feel the heat?  
And darling, darling  
No, you're turning around and around and it's deep  
I said, darling  
Do you still believe it?

Oh no, and darling  
Do you still believe?  
Oh and darling  
Don't let me go to sleep  
Oh, and darling  
Do you still believe?  
And darling  
Now let me go to sleep
