

Dead

AVEC

Black is the color for, the dead, inside me
Red is the one for our love
No one will hurt you he said
And left me
No one will hurt you I promise
Counting the days, the nights till it's over
Counting the lights and the stars
All I want is to sacrifice my body
My heart, and my soul

Leave the dead that you left behind you
Leave the mess you made in your secret garden now
Just an angel will keep all your sorrow
Just a cloud and the air and the river
So shallow

Leave the dead that you left behind you
Leave the mess you made in your secret garden now
Just an angel will keep all your sorrow
Just a cloud and the air and the river
So shallow

(Leave the dead)
