

Fire

AVEC

Hide, in your heart, 'till it's warm
Keep the fire, in your heart, 'till it's warm
And all these colors in your sky
Burn away into the night
Keep the fire in your heart

Go find me in the dark
Where I live
Keep the fire in the dark
Where we live
Where our shadows came to say goodbye
When there's nothing left to try
Keep the fire in your heart

(Oh...)
The fire, the fire
(Oh...)
The fire, the fire in your heart
(Oh...)
The fire, the fire
(Oh...)
Keep the fire in your heart

(Oh...)
We were dancing in the dark
(Oh...)
I love you so much
(I...)
And we were dancing in the dark
(I...)
With the fire in our hearts
