AVEC

I don't feel safe here anymore
Where is the road, I want me to go
Walk to home till sunrise
Will you ever notice
That I'm still alive
Am I too young to tell you anything
When I'm so much older than I seem
And there's no time to dream all for...
I just wanna stay here for a little while

I watched the sun go down today
And bird that standing in my garden way
Wanna live in this cold and shiny world
Close your eyes and tell me
What you really heard
Am I too young to tell you anything
But I'm so much older than I seem
And there's no time to dream all
I just wanna stay here for a little while
Am I too young to tell you anything
But I'm so much older than I seem
And there's no time to dream all
I just wanna stay here for a little while
Am I too young to tell you anything
But I'm so much older than I seem
And there's no time to dream all
I just wanna stay here for a little while
I just wanna stay here for a little while
I just wanna stay here for a little while
