

# I Hate You (So Much)

AVEC

Your tired face, I feel nothing when I see it  
I don't know what that means but I guess I must be dreaming  
Are you in bed yet, and are you sleeping tight?  
Can I wake you up? 'Cause I can't sleep alright

Sometimes I wish I wouldn't feel love  
Pass me by, am I even real love?

I hate you so much  
I'm exploding, I'm imploding, I'm taking myself  
Through this mess you've caused  
That was never what I wanted at all

I don't think I'm made for this  
It's making me sick and I don't wanna feel sick again  
Why is it easier to feel angry than sad?  
I swallow the pain, now I'm just dead  
And I don't wanna live like that

Sometimes I wish I wouldn't feel love  
Pass me by, am I even real love?

I hate you so much  
I'm exploding, I'm imploding, I'm taking myself  
Through this mess you've caused  
That was never what I wanted at all

I hate you so much  
I'm exploding, I'm imploding, I'm taking myself  
Through this mess you've caused  
That was never what I wanted at all

At all  
At all
