

# I'll Come Back

AVEC

Fifteen thousand boy  
Under different skies  
Oh I miss those times  
When we still had time  
Said we'll keep in touch  
Oh, it's just a month  
We know how this goes  
Oh, it's hard I know

We're lonely together but I know  
I wanna do better than before  
Than before

Because I'll come back  
Trust me it won't be long  
I promise darling  
I'll find my way back home  
Even though we're worlds apart  
Please know it breaks my heart  
You know it breaks my heart

Dated birthday cards  
Washed up memories  
Fade into the dark  
Lonely, they can see  
Damn long-distance calls  
Drain my battery  
Love so messages  
Not enough for me

We're lonely together but I know  
I wanna do better than before  
Than before

Because I'll come back  
Trust me it won't be long  
I promise darling  
I'll find my way back home  
Even though we're worlds apart  
Please know it breaks my heart  
You know it breaks my heart  
(You know it, you know it)

I'll come back  
Trust me it won't be long  
I promise darling  
I'll find my way back home  
Even though we're worlds apart  
Please know it breaks my heart  
You know it breaks my heart  
(You know it, you know it)

I was so young, didn't see  
What was important to me  
Now I have grown and the truth came  
Assure that I'll never do this alone

(Oh...) Because I'll come back  
Trust me it won't be long  
I promise darling  
I'll find my way back home  
Even though we're worlds apart  
Please know it breaks my heart  
You know it breaks my heart  
(You know it, you know it)

I'll come back  
Trust me it won't be long  
I promise darling  
I'll find my way back home  
Even though we're worlds apart  
Please know it breaks my heart  
You know it breaks my heart  
(You know it, you know it)
