

Look Around

AVEC

Can, we try it again
Can we all just erase it
And build it up from the start
Can, we do it again
Can we just start believing
In the good that we have
And haven't killed yet

No, this not my sadness
This is not my grief
None of my regret and shame
This is all yours
Take it back
Take it away from me

Good god
Look around, what the fuck have we done
We put our heads on the water
To hear nothing but our own heart beating
Make it stop
Hands down, who the hell am I kidding?
We close our eyes to the obvious
To see nothing
Good god
Look around, look around, look around

We, did this to ourselves
We know it but ignore it
It's everyone else's fault all the time
Just own it
Let, us try this again
Without hurting or hating each other
Is there anyway
Before it, all breaks

Good god
Look around, what the fuck have we done
We put our heads on the water
To hear nothing but our own heart beating
Make it stop
Hands down, who the hell am I kidding?
We close our eyes to the obvious
To see nothing
Good god
Look around, look around, look around
Look around, look around, look around, yeah

Our fail feels great
Worse out of fear and agony
Not truth within it all
Wanna leave our
Wanna leave this

Good god
Look around, what the fuck have we done
We put our heads on the water
To hear nothing

Nothing but our own heart beating
Stop
Hands down, who the hell am I kidding?
We close our eyes to the obvious
To see nothing
Good god
Look around, look around, look around
Look around, look around, look around, yeah
