

Passenger Seat

AVEC

Dive
Into the light
And hold back the anger
We're all the same here
In the wildness of your eyes
I can see myself
Did you miss me just the same, dear?

I'm never looking back
No, I'll never look back
Oh, it's in the past
'Cause life has its own way of living
And we're just in the passenger seat

Night
Into the night with the light
That keeps on
Keeps on giving
Unleash the wild
Into these depths of your silhouette
Dancing like a shadow
Without the sun that's needed

I'm never looking back
No, I'll never look back
Oh, it's in the past
'Cause life has its own way of living
And we're just in the passenger seat

Are we stuck in the passenger seat?
In the passenger seat
