

Real Love

AVEC

Can you please just shut your mouth
And tell me you're listening
Are you listening?
I'd like to say I don't feel good
And it's not the weather, dear
I'm thinking it's you

I love you
But you're breaking my heart
Time and again
I wish I'd never left
In that moment
Yeah, I felt that
I'm here on my own
Waiting for something to change
Knowing it wont

That's not real love
You're just making me feel
Really alone love
It's anything but real love
This is - use me up
Before I'm dead - love

Can you please just shut up
And promise to listen
This time you listen
Cause we need to talk about
The things you've been running
Away ever since

I love you
But you're breaking my heart
Time and again
I'm going nowhere at all
Nowhere with no end
I'm still here on my own
Waiting for it to change
That's not fair and you know that

That's not real love
You're just making me feel
Really alone love
It's anything but real love
This is - use me up, use me up
Before I'm dead - love
That's not real love
You're just making me feel
Really alone love
It's anything but real love
This is - use me up
Before I'm dead - love
Not real love
...
