

## Sailing Away

AVEC

I'm still sitting here  
With the only sound of adoring  
And I still wonder where

I'll be the day after all

And can you feel  
The grass beneath your tongue  
It's like a story  
Which begin long time ago

And it's slowly getting cold  
And I turn apart like you  
The lights go out the lights go on  
The ways they're crossing as long as you go

I'm sailing I'm sailing away  
I'm sailing I'm sailing away  
The lights go out the lights go on  
The ways they're crossing as long as you go

The lights fade  
Is walking next to me  
And I used up  
And we are gotten to me

And it's slowly getting cold  
And I turn apart like you  
The lights go out the lights go on  
The ways they're crossing as long as you go

I'm sailing I'm sailing away  
I'm sailing I'm sailing away  
The lights go out the lights go on  
The ways they're crossing as long as you go

I'm sailing I'm sailing away  
I'm sailing I'm sailing away  
I'm sailing I'm sailing away  
I'm sailing I'm sailing away  
The lights go out the lights go on  
The ways they're crossing as long as you go  
The lights go out the lights go on  
The ways they're crossing as long as you go
