

# Under Water

AVEC

You told me to let go and all I can do is try  
I'm running in circles, tired of keeping my head high  
You told me to bury my feelings dead I'm alright  
Oh, acting my whole life now I am losing this fight

Oh, Let go, let go (let go, let go)  
Don't try to follow  
Let go, let go

And it feels alive  
Breathing underwater  
Trying to hold on and get back on my feet  
And it still feels alive breathing underwater  
While all the fires are burning  
Inside of me

You told don't worry, just stay there, there's no need to hide  
But running away always seems so much easier than fight

Let go, let go (Let go, let go)  
Don't try to follow  
Let go, let go

And it feels alive  
Breathing underwater  
Trying to hold on and get back on my feet  
And it still feels alive breathing underwater  
While all the fires are burning  
Inside of me

You told me to drown all my feelings, God damn I tried  
But who am I to judge on what's wrong or what's right

(Let go, let go  
Let go, let go)

And it feels alright  
Breathing underwater (underwater)  
Trying to hold on and get back on my feet (Let go, let go)  
And it still feels like breathing underwater (underwater)  
While all the fires are burning  
Inside of me (Let go, let go)

Let go, let go  
Let go, let go

And it feels alright  
Breathing underwater  
Trying to hold on and get back on my feet  
And it still feels like breathing underwater  
While all the fires are burning  
Inside of me
