

# Audacious

Avelino

Turn up with my niggas for the night  
I'm in a suite, you know I'm nice  
Roof top stepping with no shoes on  
Self made, no one put my crew on  
So turn up with my niggas for the night  
Top floor and I'm afraid of heights  
Roof top stepping with no shoes on  
I just wanna see you in Louboutins, oh  
You deserve more  
Said you want a baller but you threw the curve ball  
Never went to Uni, now I'm universal  
When I need somebody I give you the bird call

Ooh, I don't want nobody but you  
Girl I pull up on you, come, we cruise  
You and me are  
The perfect match and now your purse is matching with your shoes  
I can see you, I can see you on a runway  
Girl, your time is coming, you're just fashionably late  
Got me French kissing out in Paris where we lay  
I'ma kill that pussy and get rid of the remains  
'Cause I should really give you diamond's, you're a dime  
I'm tryna make this happen, make you mine, you're amazing  
Give it to me all day, I'm audacious

Why you never leave me, why you never let me go?  
You been on my mind, I just had to let you know  
Every time I look you look amazing  
Maison Margiela waiting for you a la maison  
Good just isn't good enough  
For you baby, you deserve the best and things are looking up  
Tell you when I'm pulling up  
It's a Bentayga girl, you know me  
You're worth way more than this money on me, if you ever want a thing go buy  
it  
And you're always looking like a model, I'ma dress you in designer  
It's a catwalk when you walk by, oh

Ooh, don't want nobody but you  
Girl I pull up on you, come, we cruise  
You and me are  
The perfect match and now your purse is matching with your shoes  
I can see you, I can see you on a runway  
Girl, your time is coming, you're just fashionably late  
Got me French kissing out in Paris where we lay  
I'ma kill that pussy and get rid of the remains  
'Cause I should really give you diamond's, you're a dime  
I'm tryna make this happen, make you mine, you're amazing  
Give it to me all day, I'm audacious

Audacious  
I'm an audacious  
Nigga in a spaceship  
And it's all spacious  
Audacious  
I'm an audacious  
Nigga in a spaceship

And it's all spacious
