Lights paint the windows in the sky
The past is sewn
In pursuit our spirit shown
But for now there's no one home

Heavens work on borrowed time
(walk alone)
Empty pages burn forever mine
(walk alone)
Masquerade us upon high
(walk alone)
All we are is all we've left behind
My sweet Medusa, reflect the empty in our behind
Snakes born of fire conjure the demons in our dreams

In void we illustrate our lives Emerge in small Heed the sign meant to evolve To the end we send the call

Heavens work on borrowed time
(walk alone)
Empty pages burn forever mine
(walk alone)
Masquerade us upon high
(walk alone)
All we are is all we've left behind

Where children shiver in the cold The sun will shine Just a touch to heal the blind In ourselves we hope to find

Heavens work on borrowed time
(walk alone)
Empty pages burn forever mine
(walk alone)
Masquerade us upon high
(walk alone)
All we are is all we've left behind

Alone
