

# Until the End

Avenged Sevenfold

Weekends on young and angry streets  
We meet, drink 'till trouble found us there  
Living life as without a care  
We've had our fights, been black and blue  
It's true, I've even gone to jail for you my friends  
Bet your life that I'd do it again

(Until the End)

Don't change the way you think of me  
We're from the same story  
Life moves on, can't stay the same  
For some of us, I'm worried, yeah

While some have gone their separate ways  
There's some still caught up with the past  
And steady to move on, you're missing most of your life  
They say it's hard to stay the same  
When some fail, while other men seem to gain, but friends  
I'll be with you here until the end

(Until the End)

Don't change the way you think of me  
We're from the same story  
Life moves on, can't stay the same  
For some of us, I'm worried

We're all falling forward  
With no signs of slow  
Some moving faster  
That's all that I wanted  
I wanted

I know it's hard  
It's passing by  
Memories  
Be out all night  
So reminisce won't bring you back  
Just look ahead and hold on tight

We're all falling forward  
With no signs of slow  
Some moving faster  
That's all that I wanted  
I wanted

Don't change the way you think of me  
Oh yeah

Until the end  
Until the end  
Until the end  
Until the end
