See the earth tear up, flames are rising high Thunder's roaring like a beast
Modered hands and skulls appear in the flames
The Zombies obey to their priest
See the tries right there in the moonshine
Naked virgins chained to die
A crowd of sinners first made love to shame
Teared up assholes, hear their cries

How the smell of death's coming nearer and
Ranked sinners pleasure's near
Cause the living death's just a slave to them
Only Satan's what they fear
How the virgin's flesh is spreading round and round
Zombies slaver mixed with blood
And the lord of lies has been satisfied
In this night has died a lot

Southcross Union Coming straight from hell Southcross Union Never break their spell

In the break of dawn there is nothing left Than a bloodred coloured sand And the insurance that the tales are true Of hell's Union in the land Demonic laughter of their lord Lucifer Joins the sinners on their way The next sacrifice will be greater then Soon the hell will come to stay

Southcross Union Coming straight from hell Southcross Union Never break their spell

Southcross Union Rape you down to hell
