

## Alone

Avenir

You just got off  
I'll be speeding, yes I'm on my way  
With no thoughts, I cleared my mind  
Free for you to stay

I'll love you more  
Forevermore, and see you every day  
The way the sun would come right down to you

And shine on your face for me  
Most of the days I like to be alone  
But now, you changed the game for me

The moon and stars will lead to me  
Put your trust and faith in me  
Why can't I be the one you think of when you're lying down?

We both share a note of love that words cannot explain  
It's hard to shake the feeling off, I'll never be the same  
I won't expect too much  
But don't expect the least  
I got you within my reach  
It's you for me and us below the sun

It shines on your face for me  
Most of the days I like to be alone  
But now, you changed the game for me

The moon and stars will lead to me  
Put your trust and faith in me  
Why can't I be the one you think of when you're lying down?
