

I don't mean to confuse you, girl  
But I know you need some company  
And I won't talk around and do nun'  
So let me come and show you  
I won't let you down  
Girl, I got money now  
I know [?] to see me  
That's what y'all talkin bout  
Play some Neo Soul  
And let me set the tone  
Cause I got more to give  
Now that I'm back in it, oh

Baby, baby, can I show you love?  
Cause I don't know, anyone, that'll do you better  
Baby, baby, I could've shown you love  
For what it is, how it work, every word of affection

Girl, let me stop your cries with [?]  
You kissin' on me, smilin', saying, "This ain't what lovers do"  
I don't got no time, the way I work too much  
I fuck around and now you're calling me out on my bluff

Baby, baby, can I show you love?  
Cause I don't know, anyone, that'll do you better  
Baby, baby, I could've shown you love  
For what it is, how it work, every word of affection  
Baby, baby, can I show you love?  
Cause I don't know, anyone, that'll do you better  
Baby, baby, I could've shown you love  
For what it is, how it work, every word of affection
