MORAL

Avenoir

Chasing things you won't find
Chasing things you won't find in me
We need distance girl we need time in between

What don't you get from what I'm sayin'?
I can't give you what you're feelin
And I'm not seein' what you're seein'
But I'm guessin' that's just me
You're the one who told me go do me, girl
Gave you me, fuck that I'm putting me first
I've been on the road, you know I need work
Don't be chasin' me, neither
Honestly I never wanted you hurt
I didn't mean to treat you like you ain't worth
I've been on the road you know I need work
Don't do nights with me, neither

You're so hot and I'm coolin' down
I know what you into now
Probably got the same niggas
Shit you probably hit her with the same bitches
But now you come into the crib, babe
You say ain't like she notices real low, babe
You can tell me bout the way I make you feel
Make all the noise you want, you know the deal
You don't gotta hide that shit from me girl
Sex and some Petron is what you need now
And I can see it on your face
Girl I can see it on your face
Forget about the consequences right now
We sexin to the music, outta tune now
I knew I saw it on your face
Girl I still see it on your face
