You know I love you girl
That's why I had to leave
I got some trust issues
Hope you still fuck with me
I got some me issues
Don't fall in love with me
I know you're hurting too
So don't go out your way for me

I feel like I'm losing my mind (my mind)
Gone in due time (due time)
I don't worry 'bout it too much
'Cause I know worse than what you imply
And 'bout all the guys
And what you was before us
So make up your mind
You know, what's wrong
And I'll tell you why
You still be down

Said, "Lovely girl at the club
Let me know what's on your mind"
Said, "Lovely girl at the club
How can we make this right?"
Said, "Lovely girl at the club
You comin' with me back home?"
Said, "Lovely girl at the club"
Leavin' all of her clothes

Don't talk to me at all
I know just what you want
You don't want anyone
I know I'm what you want
Don't talk to me at all
Just feel on me that's all
I know I'm what you want
You don't want anyone

You know I love you girl
That's why I had to leave
I got some trust issues
Hope you still fuck with me
I got some me issues
Don't fall in love with me
I know you're hurting too
So don't go out your way for me

You know I love you girl
That's why I had to leave
I got some trust issues
Hope you still fuck with me
I got some me issues
Don't fall in love with me
I know you're hurting too
So don't go out your way for me
