

Too Much

Avenoir

Money came in, I'm wealthy, where you been at? I'm nervous
If a next man got to ya (To ya), girl, I been ghosted on purpose
Just tryna find my purpose, I been grinding and lurkin'
But I'm hoping that you'll see me tonight

'Cause I got that real nigga work ethic, too much on my plate
Come see you real early, I got too much on my brain
Making love all morning, small talk gets boring
Feeling you is what works for me
Too much (Ooh, much)
Too much (Oh, ow, too)
Too much (I want you)
Too much, forever, tonight

Came a long way from being that nigga with nobody
I ain't used to making time, but try to think about me in good ways
When we don't speak, lady, think good things
My eyes are on you

'Cause I got that real nigga work ethic, too much on my plate
Come see you real early, I got too much on my brain (My brain)
I'm back for good, so let's do it, I hope that you're as true
As you claim, but either way, it's just
Too much
Too much
Too much (Ooh)
Too much, forever, tonight

After the pain and the act is all over
I pray that you're not empty
After I've seen the whole world
True beauty is you
Let's fly to escape this 'cause everything makes sense
When the world is only us two
Allow me to hold you (Oh yeah)
Come closer
It's been low without you, long time without you
I'm no different, I'm what you've been missing
In your life (Mm)
I wanna be, I wanna be
'Cause now that we're both in a better place
I think now's the time
To be in your life
I wanna be, I need to be alone
