

# Stop The Rain

Average White Band

Just yesterday you slipped  
away from me  
without so much  
as one word of good-bye  
You packed the sunshine  
in your big old suitcase  
Now only the rain fills the sky

You were mine  
but suddenly it's changed  
Wish that I... could find a way  
to stop the rain

I thought that everything  
was going fine  
But I was blind  
blind as a man could be  
I took for granted  
what you tried hard to give  
And now the rain  
is all I can see

You were mine -  
but that was yesterday  
Wish that I... could find a way  
to stop the rain

Now tell me please  
do you understand  
what this feeling  
is all about  
'Cos when you left me  
you took my heart -  
squeezed the sunshine out

But in time  
this heart of mine will heal  
the Sun will shine  
and I can find a way to stop the rain
