

## Twilight Zone

## Average White Band

Don't it feel bad  
When your woman is mad that you don't come home  
And you try to pretend that it doesn't affect you  
Still you wait by the phone

And you're caught in a twilight zone  
Nothing that you can do  
Caught in a twilight zone  
It's great it happen

Something is wrong, she's been gone so long  
I wonder where can she be  
And you stop to imagine  
About the bone left stucken  
And if it still become much stronger than me

And you're caught in a twilight zone  
Love is just standing still  
Caught in a twilight zone  
But you never quit

How I wish that I could hear her key in the door  
Yeah that would please me  
Jump at every sound, every scrape at the floor  
Just try to tease me

Well I wanna let you  
I'm gonna let you know  
Somethings have just got to change  
Well I wanna let you  
I'm gonna let you know  
These things got to be talked about  
Plans to re-arrange

Bad as it seems  
This must be something I can raise above  
Because it comes to each and everyone  
Rich or poor, every mother son  
Whoever fell in love

And you're caught in a twilight zone  
Nothing that you can do  
Caught in a twilight zone  
It's great it happen

How I wish that I could hear her key in the door  
Yeah that would please me, hmm  
Jump at every sound, every scrape at the floor  
Just try to tease me

But I wanna let you  
I'm gonna let you know  
Somethings have just got to change  
Well I wanna let you  
I'm gonna let you know  
These things got to be talked about  
Plans to re-arrange

And you're caught in a twilight zone  
That is just bad at scale  
Caught in a twilight zone  
It's great it happen

Hey (I know) oh yeah, yeah
