

What Is Soul

Average White Band

So few people really know
It's deep within us, it doesn't show
A soul is something that comes from deep inside
But a soul is a something that you can't hide

What is soul? What is soul, babe?

Search your heart, go deep down low
Way down there you'll find your soul
Come near, girl, you look so cold
Touch my hand and warm your soul

Baby, baby, what's wrong with you?
You don't know what I'm going through
Hold me so tight, so tight I can't breath
Can't you feel it, girl? Don't you know what I mean?
This is soul!

This is soul! Feel the soul, babe!
What is soul, babe? Don't you know?
What is soul, babe?...
