

## Make It Look Easy

Avery Anna

You should just leave me  
Why would you stay?  
I'll never be what you want anyway  
To be brutally honest  
I'm really conscious  
Of every single thing you say

It hit me last night  
You're planning the goodbye  
Do you think that I'm blind?  
I see it in your eyes  
Your truck's in the driveway  
Your mind's on the highway  
Know you're gonna leave me  
And make it look easy

You look at me different  
Just thought we were off  
Shoulda noticed some clothes in the closet were gone  
We used to talk, now you turn on the TV  
This almost hurts worse than you cheating

It hit me last night  
You're planning the goodbye  
Do you think that I'm blind?  
I see it in your eyes  
Your truck's in the driveway  
Your mind's on the highway  
Know you're gonna leave me  
And make it look easy-oh  
Oh, oh

What did I do to do you wrong?  
You're still here, but you're already gone

Yeah, it hit me last night  
You're planning the goodbye  
Do you think that I'm blind?  
I see it in your eyes  
Your truck's in the driveway  
Your mind's on the highway  
Know you're gonna leave me  
And make it look easy
