

# The Rest

Avery Anna

Met her at the Dairy Queen  
She never cared about material things  
Saw the crown on her head  
And he knew that it meant she was blessed  
They fell in love, and they couldn't wait  
Let Arizona be their hometown state  
Far from a hopeless romantic  
But he took her hand and said

You just keep those  
Home fires burnin' and  
I'll keep workin'  
For you, I'll do my best  
All we need is  
To believe in each other  
Keep a good heart  
And a prayer in your chest  
And the Lord will do the rest

I like to think that I'm a lot like you  
I play guitar just like you taught me to  
And I study and emulate all of the steps that you take  
And I hear you say

You just keep those  
Home fires burnin' and  
I'll keep workin'  
For you, I'll do my best  
All we need is  
To believe in each other  
Keep a good heart  
And a prayer in your chest  
And the Lord will do the rest

Ooh  
Ooh, mmm

Singin' on the front porch loud  
That's still my favorite sound  
And I hope I make you proud singin' on the Opry now

You just keep those  
Home fires burnin' and  
I'll keep workin'  
For you, I'll do my best  
All we need is  
To believe in each other  
Keep a good heart  
And a prayer in your chest  
And give back all the love that you get  
And the Lord will do the rest

Ooh  
Ooh  
Ooh, and the Lord will do the rest
