

intruder

Avery Lynch

I made peace
With staying inside For safe keeping
The halls and the ceilings
It's just me
This vault and an arms length
Between me and anyone knocking

Till you broke in
Picked the locks
All the alarms start
Sounding
It won't be long yea

You're an intruder
You walked right in
And I knew you're
Nothing but trouble
A danger
A face I like around
You're just a stranger
The sweetest security error
If I let you in would you stay here
Wait through all the warning sounds
You're an intruder
You're an intruder

You tricked me
Your sweet talk and eyes locked
You got me
When I wasn't looking
Already
You're starring in all of my daydreams
And I'm watching on repeat

When you broke in
Picked the locks
All the alarms start
Sounding
It won't be long yea

You're an intruder
You walked right in
And I knew you're
Nothing but trouble
A danger
A face I like around
You're just a stranger
The sweetest security error
If I let you in would you stay here
Wait through all the warning sounds
You're an intruder
You're an intruder
You're an intruder
You're an intruder
