

# Rain

Avery Lynch

You're not a pain  
That just goes away on its own for a day  
You're always back later  
And I met a guy  
He's sending me signs  
Like he wants to be mine  
Asking me to dinner

And I think that it'd be fun  
Getting all dressed up  
Being with someone

But he's there and he's nothing like you  
And I'm right here on the floor of my room  
And you're nowhere  
Oh what I would do  
What if you knew

I'll stay inside  
And patiently wait out the storm  
I don't mind  
Could it be that it's some subliminal sign  
We're not meant to be where we are  
It's not time  
When it should be you there

Then I'd think that it'd be fun  
Getting all dressed up  
No one there but us

But he's there and he's nothing like you  
And I'm right here on the floor of my room  
And you're nowhere  
Oh what I would do  
What if I knew

And he's so kind but it's not the same  
Yeah no sparks fly when he says my name  
Guess I'm not fine  
What id do to stay  
If I knew how to make it rain

Make it rain, make it rain

And he's so kind but it's not the same  
Yeah no sparks fly when he says my name  
Guess I'm not fine  
What id do to stay  
If I knew how to make it rain

Make it rain, make it rain
