

Round & Round

Avery Lynch

I told you
You bring out sides of me that need you
And that'd be cool if you
Ever needed me like that

You like to
Keep me just close enough to fall for you
And it's no good
But to me there's wrong with that

Cuz maybe we'll be nothing more than
Just a memory I'll wanna forget
And you've been holding me so loosely
But you're close to me and I love it

You take me
Round and round
Round and round
And I
Don't think I
Wanna get down
You take me
Round and round
Round and round
But please, don't let me down

I know you
You take your pride in someone wanting you
But you want to
Be so untouchable and so irresistible
But I know you're scared of all
The feelings you never let yourself have

Cuz maybe we'll be nothing more than
Just a memory I'll wanna forget
And you've been holding me so loosely
But you're close to me and I love it

You take me
Round and round
Round and round
And I
Don't think I
Wanna get down
You take me
Round and round
Round and round
But please, don't let me down

You're the prettiest mistake I'll ever let myself make
Yea you're the person I most hate but I can't let get away

You take me
Round and round and round
And I
Don't think I
Wanna get down

You take me
Round and round
Round and round
But please, don't let me down
