Useless Information

Avery Lynch

It's been two months
Of forgetting us
Like I had the option

And I memorized
Everything you liked
Like no one was watching

And I wasn't done
With loving ya
But that's how this stuff happens

'Cause one day it's good
Then the next it's not
Then the next one you're broken

And you're engraved in every thought
Where does all the useless information go
And how much longer does it have to hurt for

'Cause we broke up
And you took all the parts of me that I really loved
And all you left was useless information

I know the street you lived
Rules to sports you did
I know too much about them

And your teacher's name
From second grade
How she always adored you

Yeah I learned your lines
Knew your tell in lies
That's how I saw it coming

Every Thursday now
Since the one you bowed out
Is another one ruined

'Cause you're engraved in every thought
Where does all the useless information go
And how much longer does it have to hurt for

'Cause we broke up
And you took all the parts of me that I really loved
And all you left was useless information
Useless information
Useless information

Yeah it's been two months
Of forgetting us
Like I had the option
