

When It Ends

Avery Lynch

I guess we've come to realize
That just because we want it doesn't mean it's right
But selfishly I wanna try
I don't want all I have of you just memorized

How?
How did you do this to me?
You're the only someone I wanna keep
I'm frozen in every word you speak
And I'm thinking maybe

What if
We didn't care for just a moment?
We let ourselves say the things we shouldn't
Cause those are the words that'll make it harder when it ends
But you're perfect
You're everything good but in a person
And maybe right now is not our time yet
But I wanna hear things that'll make it harder when it ends
Cause it's worth it
Mmm... cause it's worth it

I think the worst part of goodbye
Is I won't get to call and make sure you're alright
It's hard to know if this is right
When I can't go a day without you on my mind

How?
How did you do this to me?
You make me wanna forget what's best for me
Cause you're the only someone I wanna keep
And I'm thinking maybe

What if
We didn't care for just a moment?
We let ourselves say the things we shouldn't
Cause those are the words that'll make it harder when it ends
But you're perfect
You're everything good but in a person
And maybe right now is not our time yet
But I wanna hear things that'll make it harder when it ends
Cause it's worth it
Mmm... cause it's worth it
Mmm...

How?
How did you do this to me?
And I've completely forgot what's best for me
You're the only someone I think I need
Just tell me you're with me

What if
We didn't care for just a moment?
We let ourselves say the things we shouldn't
Cause those are the words that'll make it harder when it ends
But you're perfect
You're everything good but in a person

And maybe right now is not our time yet
But I wanna hear things that'll make it harder when it ends
Cause it's worth it
Mmm... cause it's worth it
Mmm... cause you're worth it
Mmm... cause it's worth it
