

# Faze Me

Avery

I wake up in a fantasy land  
Where everything is great but it's all in my head  
I take pills just so I can be skinny  
'Cause someone once told me that I wasn't that pretty  
So I get high all by myself  
And I never felt so ugly in my life  
I feel dizzy, now the room's spinning  
And I don't think I'm getting any closer to winning, and I

Wanna close my eyes, wake up as someone else  
Everywhere is lonely when you hate yourself  
And I don't wanna know me anymore

So take a look at what you made me  
All you people did was change me  
You all say you tried to save me  
All you did was make me hate me  
This time I won't let you faze me

You told me I'd always need your help  
I believed in you more than I did in myself  
I sat back and did what you told me  
Now I look at myself and I don't even know me  
In your eyes, I was never enough  
Now I turn to strangers when I'm lookin' for love  
And now I'm thinkin' maybe that I'm better off lonely  
'Cause people always leave me so much worse than they found me

But I've become so many different people now  
Hopin' one of them would finally make you proud  
And I don't wanna know you anymore

So take a look at what you made me  
All you people did was change me  
You all say you tried to save me  
All you did was make me hate me  
This time I won't let you faze me

I don't wanna waste anymore time  
Feeling like my life isn't mine  
I'm so sick of these lies  
And no, I'm not fine

So take a look at what you made me  
All you people did was change me  
You all say you tried to save me  
All you did was make me hate me  
This time I won't let you faze me

This time I won't let you faze me  
This time I won't let you faze me
