I ain't your prom queen
I aint the one u need
I aint some lil ball of clay u can mold
In the palm of ur hand
I dont need protection
Or for u to hold my hand
Or u to stick up for me just 'cause u can

I can do it myself

I can be just a little bit Of a little bitch when i want 2 I can be that Lil bitch to you U know that u Don't appreciate dont want me So why u actin Like u really do? 'cause i'll feel what i want to Do what i gotta do Say what i mean So no to you Why are u trippin What r u sippin If u think We'd be good

I'll never call ur cell
Make u hurt like hell
Not really care about what u do
Piss u off so bad
Get u really mad
I hear opposites attract
But not in this case
I aint ur type
U know i'm right
So stop playin
Ur foolin urself
Don't wanna end it
Lose our good friendship
But we ain't meant to be
