

# Wake My Door

Avey Tare

Sad to go away but  
Guess we're supposed to  
World in a jar  
Out come you  
See you in the future  
Some forget in  
The willows and doubts  
Will leave the clues  
Let me make my door  
Beautiful and [trench]  
Let me shape my door  
Chorus with [remiss]  
And let me wake my door  
And into this great big world  
I'll break my  
Now I wear a peace coat  
And it won't hurt  
There's [subtle eye] shadows  
On concrete, on dirt  
Living up to my roots  
Every day  
And I thank them for teaching me  
How to bear fruit  
Let me make my door

Beautiful and [trench]  
Let me shape my door  
Chorus with [remiss]  
And let me wake my door  
And into this great big world  
I'll break my  
Laying on a driveway  
Looking up where there's  
Crows in a murder  
There's blood on my shirt  
Trying not to doze off  
Feel the palms of my  
Hands on the warmth of the ground and the surf  
Let me make my door  
Beautiful and [trench]  
Let me shape my door  
Chorus with [remiss]  
And let me wake my door  
And into this great big world  
I'll break my
