

All Is Well

Avi Kaplan

I dove into the dark
I swear I almost drowned
But I could see the stars looking up
As I was sinking down

All is well
All is well
Heaven, hell, wherever I go
All is well in my soul
All is well

I've landed in the light
And my eyes could finally see
The darkness in my mind
Was the path to set my spirit free

All is well
All is well
Heaven, hell, wherever I go
All is well in my soul
All is well

It's the smoke, it's the flame
It's the ash and it's the rain
It's the burn you wash away
It's the change and it's the same

All is well
All is well

Heaven, hell, wherever I go
All is well
Time will tell and I will know
All is well in my soul
All is well

Heaven, hell, wherever I go
All is well in my soul
All is well
