

Cold Blooded

Avi Kaplan

Man comes in a Cadillac
All your money or he'll break your back
Working hard for a couple stacks
Now it's all but gone
Big brother got a wicked way
Coming 'round when there's bills to pay
Honest man can't catch a break
So tell me what went wrong

We got to fight
We got to rectify
We got to lose our minds
Let that blood run cold
We got to fight
I'm talking day and night
We got to lose our minds
Let that blood run cold

Go 'head, go 'head

Cold-blooded with a heart of gold
Don't want this for your own soul
Never old and you never know
Can we take control?

We got to fight
We got to rectify
We got to lose our minds
Let that blood run cold
We got to fight
I'm talking day and night
We got to lose our minds
Let that blood run cold

Cold-blooded
Cold-blooded
Cold-blooded and it burns our minds
Cold-blooded
Cold-blooded
Cold-blooded and it burns our minds
Cold-blooded
Cold-blooded
Cold-blooded and it burns our minds
Cold-blooded
Cold-blooded
Cold-blooded and it burns our minds

We got to fight
We got to rectify
We got to lose our minds
Let that blood run cold
We got to fight
I'm talking day and night
We got to lose our minds
Let that blood run cold

Cold-blooded

Cold-blooded
Cold-blooded and it burns our minds
Cold-blooded
Cold-blooded
Cold-blooded and it burns our minds
