

Floating On A Dream

Avi Kaplan

I've been down in the dust, in the shadows
I've been lost in the smoke for a while
I spent too many days in the desert
Yeah, I walked for a thousand miles

And now I see
Streams of heaven fall on me
Sun is shining and I feel
Like my body's on the breeze
And I'm floating on a dream

Yeah, I had me a vision in the heat
The desert was the bottom of the sea
Yeah, the dunes, they were no longer thirsty
And the tide rolled in and set me free

And now I see
Streams of heaven fall on me
Sun is shining and I feel
Like my body's on the breeze
And I'm floating on a dream
Yeah, I'm floating on a dream
Floating on a dream
Yeah, I'm floating on a dream
Floating on a dream

And now I see
Streams of heaven fall on me
Sun is shining and I feel
Like my body's on the breeze
And I'm floating on a dream
Floating on a dream
I'm floating on a dream
Yeah, I'm floating on a dream
Yeah, I'm floating on a dream
