

# Get Down

Avi Kaplan

When the rain is all I see  
And the black cloud's coming for me  
Thunder-roll got me on my knees  
But then I'm back on my feet no stopping

Ain't nothing gonna take my fire  
Ain't nothing gonna crush my soul  
Nobody gonna make me a liar  
Gonna get up if I get down low, yeah

Get down and get down  
But I keep on climbing on it  
Get down and get down  
But I keep on climbing up

Don't matter if the wolves start calling  
Don't matter how much I'm falling, yeah  
Get down and get down  
But I keep on climbing up

Walking on these weary bones  
Stepping down that lonely road  
And again I'm getting close  
To the end of my rope, and I'll hold it

Ain't nothing gonna take my fire  
Ain't nothing gonna crush my soul  
Nobody gonna make me a liar  
Gonna get up if I get down low, yeah

Get down and get down  
But I keep on climbing on it  
Get down and get down  
But I keep on climbing up

Don't matter if the wolves start calling  
Don't matter how much I'm falling, yeah  
Get down and get down  
But I keep on climbing up

Get down and get down  
But I keep on climbing on it  
Get down and get down  
But I keep on climbing up

Don't matter if the wolves start calling  
Don't matter how much I'm falling, yeah  
Get down and get down  
But I keep on climbing up

Get down and get down  
But I keep on climbing on it  
Get down and get down  
But I keep on climbing up

Don't matter if the wolves start calling  
Don't matter how much I'm falling, yeah

I get down and get down  
But I keep on climbing up
