

Good Good Love

Avi Kaplan

I'm out
My mind
I been thinking 'bout it day and night

Sun up
Sundown
Guess I'm feelin' what they're talkin' bout

You got me thinking 'bout that good good love
You got me dreamin' 'bout that good love and I can't get enough
I been thinking 'bout that good good love
All day all night
All I think about is good good love
Your good good love
Your good good love
Your good good love

Your eyes
No lie
A look from you could bring a dead man life

Your lips
So sweet
Feelin' like they put a spell on me

You got me thinking 'bout that good good love
You got me dreamin' 'bout that good love and I can't get enough
I been thinking 'bout that good good love
All day all night
All I think about is good good love

Your good good love
Your good good love
Your good good love

I been thinking 'bout your love every day and night
All your good good love gon' and made it right
I been thinking 'bout your love baby good good love

I been thinking 'bout your love every day and night
All your good good love gon' and made it right
I been thinking 'bout your love baby good good love

I been thinking 'bout your love every day and night
All your good good love gon' and made it right
I been thinking 'bout your love baby good good love

You got me thinking 'bout that good good love
You got me dreamin' 'bout that good love and I can't get enough
I been thinking 'bout that good good love
All day all night
All I think about is good good love

Your good good love
Your good good love
Your good good love

(You got me thinking 'bout that good good love
You got me dreamin' 'bout that good love and I can't get enough
I been thinking 'bout that good good love
All day all night
All I think about is good good love...)
