

# I'm Only Getting Started

Avi Kaplan

Eyes clouded blood on my face  
No mercy coming my way  
Yeah I'm only getting started  
Cracked knuckles fist shaking  
These rivers run but I'm staying  
Yeah I'm only getting started

I'm bleeding now but my fear is gone  
I'm hollowed out but I carry on

My bones don't lie they're broken but they still got fight  
I'm only getting started  
I'm only getting started  
You set my fire those flames are getting higher and higher  
I'm only getting started  
I'm only getting started  
I'm only getting

Scrape gravel from the palm of my hands  
Skin weathered from the wind and sand  
From the valley where I used to live  
I'm the storm heading over that ridge

Yeah my bones don't lie they're broken but they still got fight  
I'm only getting started  
I'm only getting started  
You set my fire those flames are getting higher and higher  
I'm only getting started  
I'm only getting started

I'm bleeding now but my fear is gone  
I'm hollowed out but I carry on

My bones don't lie they're broken but they still got fight  
I'm only getting started  
Yeah I'm only getting started  
My bones don't lie they're broken but they still got fight  
I'm only getting started  
I'm only getting started  
You set my fire those flames are getting higher and higher  
I'm only getting started  
I'm only getting started  
I'm only getting
