

# Move Our Souls

Avi Kaplan

There's a fire in the mountain  
There's a fire in the sea  
There's a fire in my heart love  
For you and me

Burning bright in the moonlight  
Bathing in the glow  
With every bone in our body  
Baby move our souls

Baby move our souls

Every drum from a heartbeat  
Shaking down to the ground  
I can feel it in my blood stream  
Swimming all around

Thunder rolls in the distance  
Yeah the wind is cold  
With every bone in our body  
We got to move our souls

Baby move our souls

Got to move our  
Got to move our souls  
Hey  
Got to move our  
Got to move our souls  
Hey got to move our souls

Got to move our souls  
Hey  
Hey  
Got to move  
Got to move  
Got to move our souls  
We got to move them  
Got to move our souls  
Hey  
Got to move our souls  
Got to move our souls  
Got to move our  
Got to move our  
We got to move our souls
