

My Queen

Avi Kaplan

Queen my sweet, sweet queen how I've loved thee for eternity
I'm here on bended knee, my heart is clean and it's yours to keep

Your amber eyes they heal
They hold me in their light
My sunshine in the morning
You cast away the night

My Queen
My Queen

Love my sweet, sweet love
You came from above
In a desert rain

Your throne upon a cloud
Feathers in your crown
Kindness on your face

Your amber eyes they heal
They hold me in their light
My sunshine in the morning
You cast away the night

My Queen
