

Otherside

Avi Kaplan

Emerald ivy, wrapped around my skin
Pulls me deeper, drags me back again
Tangle me up in your vines
Take my spirit, take my mind
Take me over to that other side

Ruby river, glowing in the sun
Wash me over, show me where you run
Roll me deeper in your tide
Take my spirit, take my mind
Take me over to that other side

Silver moonlight, come show me the way
Hold me over 'til the break of day
Lead me closer to your light
Take my spirit, take my mind
Take me over to that other side
