

## Sage And Stone

Avi Kaplan

It's a place where we used to go  
With arrowheads and an eagle  
Winter sky painted indigo  
Where we all go roamin' the sage and stone

And I  
Will take you in time  
And I  
Will take you in time

You feel in your knees  
You were never meant to leave  
Like the autumn breeze  
You will blow to the sea  
You feel the light  
Your body's never old  
You are alive  
When the mountains soothe your soul

And I  
Will take you in time  
And I  
Will take you in time
