

Set Me Free

Avi Kaplan

Out on the run
High on the low
I never saw you coming
Head on the line
Down on the road
I got to feel your lovin'
And it's making me wild

No need to roam
We got the flow
We got to get together
I brought the rain
You brought the shine
I brought the stormy weather
But when I look in your eyes

You set me free
Now it's alright
Took that darkness and turned it to light
I won't let go
Hold you tight
You shook my heart and it got me right
When you set me free
When you set me free
Oh when you set me free

You are the fire
You are the wind
You are the ocean

You are the truth
You are the light
You are the holy motion

And you're movin' my soul

Oh baby you oughtta to know

You set me free
Now it's alright
Took that darkness and turned it to light
I won't let go
Hold you tight
You shook my heart and it got me right
When you set me free
When you set me free

I got to tell you baby
You set my heart free
And you got to believe

You set me free
Now it's alright
Took that darkness and turned it to light
I won't let go
Hold you tight
You shook my heart and it got me right

When you set me free
Now it's alright
Took that darkness and turned it to light
I won't let go
Hold you tight
You shook my heart and it got me right
When you set me free
When you set me free
Oh when you set me free
