

# Uncanny Valley

Avi Kaplan

The look in your eyes  
So deeply designed  
Watch you scanning my body  
While you're reading my mind

Blink and you'll miss it  
Your emerald can see  
Honey it's like you were built  
Built just for me

Hardwired to fall in love  
Hardwired to keep me coming back  
Hardwired to fall in love  
Should be running, should be running  
Feels like you know too much  
A deeper understanding  
Hardwired to fall in love  
Should be running, should be running

The way that you move  
My stop motion did  
Come to me darling  
Reset yourself over here  
You know that I'll wait  
You know far too much  
But I feel the electricity  
Whenever we touch

Hardwired to fall in love  
Hardwired to keep me coming back  
Hardwired to fall in love  
Should be running, should be running  
Feels like you know too much  
A deeper understanding  
Hardwired to fall in love  
Should be running, should be running

I know I  
Lost control  
I've lost control  
But I  
Don't define  
What's a soul  
Oh what's a soul

Hardwired to fall in love  
Hardwired to keep me coming back  
Hardwired to fall in love  
Should be running, should be running  
Feels like you know too much  
A deeper understanding  
Hardwired to fall in love  
Should be running, should be running
