

When I'm A Fool

Avi Kaplan

Darling, I'm ashamed
Wish I could change
The things I said
That caused you pain
Fire in my eyes
That made you cry
Filled up all the oceans
And swallowed all my pride

And it sunk to the bottom of the sea
Yeah, I swear it'll stay there in the deep
And I know I wasn't right, don't be mistaken
I'll tell the truth when I'm a fool
When I'm a fool

I give to you my word
That I will serve
You like my queen
Your praises I will sing
My love for you
Is older than a stone
Stronger than a mountain
And like a river flows

Right down to the bottom of the sea
Yeah, it rolls with my pride in that deep
But when I know that I'm not right, when I'm mistaken
I will always tell the truth when I'm a fool
When I'm a fool

Darling, I'm ashamed
Wish I could change
The things I said
That caused you pain
Fire in my eyes
That made you cry
Filled up all the oceans
And swallowed all my pride

And it sunk to the bottom of the sea
Yeah, I swear it'll stay there in the deep
And I know I wasn't right, don't be mistaken
I'll tell the truth when I'm a fool
When I'm a fool

When I'm a fool, when I'm a fool
When I'm a fool
When I'm a fool, when I'm a fool
I'll tell the truth when I'm a fool
When I'm a fool, when I'm a fool
I'll tell the truth when I'm a fool
When I'm a fool
When I'm a fool
