

The time has come for a change to take place  
But when the old is replaced  
The shadows will be the only thing that will stay the same

And it follows everywhere  
Ups and downs and it's still there  
When the light shines the brightest its grip will tighten

On thin ice, holding my breath for when it breaks  
Freezing the blood in my veins and the thoughts in my head

Stop rejecting yourself  
Fly up to heaven just to take a dive into hell  
Stop denying yourself  
Tell me the secret, what's hidden in between heaven and hell

Different surroundings but I feel the same  
Have I've been here before  
I don't know who to trust  
I can't take it  
Every second I'm here my roots grow deeper and deeper

Show me where to lie cause I'm never at home  
I'll show you how to lie, like I've done all along  
Done all along

Is it cheating if you never knew the rules?  
A war masked as a truce  
What has the world put you through for you to become this dull  
A poor man buys his time with what's golden within his mind

Stop rejecting yourself  
Fly up to heaven just to take a dive into hell  
Stop denying yourself  
Tell me the secret, what's hidden in between heaven and hell

Stop rejecting yourself  
Fly up to heaven just to take a dive into hell  
Stop denying yourself  
Tell me the secret, what's hidden in between heaven and hell
