

INTO THE VOID

Aviana

Into the void
I'm imprisoned
The deepest shadows burning my skin
Through the door
Of discretion
As I
Follow the trails down low
Into the void
I'm imprisoned
Into the void

As the day
Grows further away from me
(Away from me)
As the day
Pulls me further way from pain

I'm terminal
Let's me covert
The palladium
The way that they test through me
I'm terminal
The palladium
The way that they test through me

Wheres the mercy
I did everything you bargained and begged me to do
Show me mercy
All I wanted was to live and exist just like you

Hail
Your violence

Your violence
The pain
The torment
It's all I ever wanted
It's all I ever
It's all I ever
It's all I ever wanted

The pain
Remains

The pain
Remains
The love I felt for lust
It's all that I have
Its all that I was
Its all that I was
Its all that I
The shame remains
The hate you felt for me
That's all that you had
That's all that was left with me

Hail, your violence

Your smile your ambitions
Hail, your violence
I'm damaged, broken, starved

I am
I am
I am
I am
I am what's broken, left aside

It's always hunting me
Somebody's ghosts

The pain
Remains
The love I felt for lust
It's all that I have
It's all that I was
It's all that I was
It's all that I have
