

# Overcome

Aviana

I can hear my veins pulsating  
Just let me breathe  
Get me out of here  
I can't live like this no more  
I'm bleeding out

Talk like this, follow my movements  
I've got you trapped in the dark with me  
(Trapped in the dark with me)

Try to stay sane, it's an avalanche of people  
Trying to pull you down in the Black Sea  
(Just follow me)

I tried to pull you aside  
Keep this from failing and die  
I watch your world rot and fall like a homicide  
Now I've got these voices inside of me  
Telling me to lay down and die

Lending faith from people who trusted in me  
Just let me breathe

I'm starving for pain  
Not sure you're willing  
I've been beaten down and bloody  
Time will show you again  
You'll die alone  
I'm trying to show you what life means

I can hear my veins pulsating  
I can feel the walls coming closer every second

Now I know how a knife in the back feels  
Trying to betray me, never enough to keep me off my feet  
Just let me breathe  
Just let me fucking breathe

Give me some space, I am cornered  
Let me catch my breath  
I've been put on a pedestal  
And I'm afraid to keep this alive by myself  
(Just let me breathe)

I'm starving for pain  
Not sure you're willing  
I've been beaten down and bloody  
Time will show you again  
You'll die alone  
I'm trying to show you what life means

(Just let me breathe)

Breathe  
Just let me breathe

I want freedom

I'm tired of this  
I'm tied up good  
Just release me  
Just let me breathe
